THE DIGITAL DISPATCH

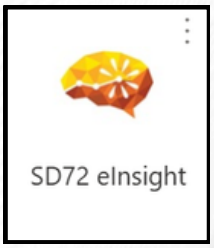
CAMPBELL RIVER
School District 72

Welcome back! I'm returning to the Educational Technology Coordinator role this year, working half-time. **My regular work days will be Tuesdays and Thursdays, plus some Wednesdays.**

I'm looking forward to continuing to support staff with technology in the classroom, digital tools, resources, and new initiatives across the district.

EINSIGHT IS HERE

The new **eInsight** MyEd companion has been soft launched in SD72. Look for the eInsight icon on your Apps dashboard.



Our first widespread use will be for CFNA data entry. A step-by-step guide for entering CFNA data in eInsight is available below.

NEW CLASSROOM APP APPROVAL PROCESS

We have introduced a new Classroom App Approval Request process to make requesting new digital tools clearer and faster for teachers.

The form asks for several details about the app and how you plan to use it. Fill it out to the best of your ability. You are not expected to have all the answers, and we will work with you to review the request and determine next steps.

APP APPROVAL REQUEST

MYED REPORTING RESOURCES

Need a refresher on reporting? MyEd reporting instructions for **K-8**, **Grade 9**, and **Grades 10-12** are available on the 72LearningHub.

Visit the **MyEd page on the 72LearningHub** for all of the details.

A QUICK LAPTOP REMINDER

Please avoid adding stickers to district laptops. When devices are returned or reassigned, IT can spend a significant amount of time removing stickers and residue.

Staff may be asked to remove stickers before returning a laptop to IT.

QUESTIONS OR SUGGESTIONS?

Do you have any technology wins or news to share? Please reach out to me at the address below.
