

North Island wind farm, Port Hardy

Learning Chinese calligraphy.

In the Words of our Students the ODA is:

"An excellent learning opportunity in and outside the classroom! My favourite trip was climbing Mt. Albert Edward and passing those beautiful alpine lakes. What a great place to make new friends and learn about the environment."

"A place to learn in new hands-on way, to really experience it for yourself."

"A place with plenty of new things to learn like camping, canoeing, and being out in the snow while learning about different cultures, geography and literature all at the same time."

"Allows you to experience learning out in nature instead of in the classroom."

"I really learned geography this year, unlike any year before!!"

"The over night trips were amazing, everyone helping everyone else, and the campfires where we all talked about the day were the best!"

"Full of academic rewards taught in a very different way."

"My favourite course in all my years at school!!!"

"A most awesome course!!"

"Pushed me out of my comfort zone on so many levels and I have never felt better about myself!"

"I found a deeper meaning in strength and of myself stepping outside of my comfort zone trying something completely different from my lifestyle to this point, I could not be happier!!!"

"We did all these academics and still had time to explore the region around us! I think everyone should have a chance at this course." "

"This class is a lot of fun and a great opportunity to make new friends and memories you won't forget!"

"What better place to start your day's lessons than after a brilliant sun rise over a beautiful lake?!"

"This class brings innovation to school!!"

Outdoor ADVENTURES PROGRAM

For Grades 11/12

Fall/Winter

Dates	Time	Location
Sept	Monday-Friday	Cape Scott
Sept	Tuesday - Thursday	Mt Albert Edward
Oct	Monday-Friday	Quadra Island
Oct	Monday-Friday	Denman and Hornby Islands

Nov	Day	Victoria
Dec	2 Days	Symphony Vancouver
Jan	Tuesday - Thursday	Winter Camp
Jan	Day	Project completion

Forbidden Plateau, Strathcona Provincial Park

The ODA Program provides 16 full credits from our four courses.

Outdoor Education is a PE 11 /12 consisting of:

Physical fitness
Leadership
Trip Planning
With skills development in:
Canoe handling and safety
Winter backcountry travel with avalanche course
Long distance, multi-day backpacking travel
Wilderness ethics
Group dynamics
First aid
Wildlife interaction training
Skiing, snow shoeing, biking, climbing

Comparative Cultures 12 We visit the great places in history, where generations of people shaped the great civilizations and cultures with religion, art, architecture, philosophy, technology, music and adventure over the past 2500 years. Explore the birth of the great civilizations of the past right to our world of today!

Physical Geography 12 Here, we use science to explore the charted and uncharted places on our planet all the while learning how we, as humans, fit into this global adventure story. We do hands on studies of locations, environments, resources, and people, locally and internationally.

English 11/12 Our focus is on broad Humanities outcomes with key literary examples drawn from Tolkien's Middle Earth, and Shakespeare's plays, to local and international writers. Our topics include: folklore and mythology, contemporary issues, technology, the origin of languages, and the power of writing short stories and essays.
