May 2026 Principal's message

As we step into another exciting spring at École Willow Point, May brings a wonderful mix of learning, connection, and community spirit. The days are growing longer, and our school is buzzing with energy as students engage in meaningful activities, both inside and outside the classroom. It is a time to celebrate progress, nurture curiosity and enjoy the many opportunities that bring us together as a school community.

This week we are pleased to welcome the Junior Canucks to our school for a day of ball hockey instruction with students in grades 1-5. This engaging experience promotes teamwork, physical activity, and fun for our students.

Our staff recently made drums to create a class set, and we are grateful to have Karen Evans, one of our district Indigenous Youth Care Workers, joining us to share teachings about drumming with our classes. This provides a meaningful opportunity for students and staff to engage in cultural learning as we make regular use of our drums.

We are also delighted to welcome back Éric from Profaqua, who visited earlier this school year to lead hands-on science workshops. At the end of the month, he will present an engaging school-wide presentation titled, "Magie ou science?", a demonstration that promises to spark curiosity and deepen students' understanding through an engaging blend of learning and discovery.

Our Grade 5 students are beginning their transition to middle school, participating in information sessions and visits to Ecole Phoenix Middle School. At the same time, we look forward to welcoming our newest learners and their families at this month's Welcome to Kindergarten event.

Thank you for taking the time to attend our recent student-led conference. It is a meaningful opportunity to connect with your child and the teacher, and to celebrate growth and learning. Student-led conferences are an important part of supporting student ownership, reflection, and goal setting. Your involvement plays a key role in strengthening the connection between home and school and supporting your child's continued learning and success as we move through the remainder of the school year.

Warm regards,

Carrie La Pierre & Nancy Hwang

REMINDERS

Morning drop off: Please do not drop your child off before 8:10 am in the morning as there is no supervision until that time. After school supervision is until 2:30pm, please pick your child up by this time.

Also, please **do not park in front of the red lines and leave your vehicle**, this is strictly a drop off and go area. If you need to bring your child into the school, please park in the parking lot.

Staff Parking Lot: Please do not walk or ride bikes into the staff parking lot from the road or otherwise. This is very dangerous as it is blind spot and staff may not see you.

Please do not park in the staff parking lot when dropping off your children, there is barely enough spaces for our staff.

Welcome to Kindergarten: This will be held on May 21st, 12:35–2:00 pm. Please RSVP to the school and send in the questionnaire that was requested.

Mme Mireille's class had a very successful and fun trip to Horne Lake Caves on April 24th.

21 FE 5G

Lukas received this year's Rotary Youth Citizenship Award.
Way to go Lukas!

Our Grade 5 Basketball team had a great season. Thank you Mme Mireille and parent volunteers for making this happen.

This month in M. Remy's class

Our class has been busy taking care of the outdoor areas of the school, including planting strawberries, onions and calendula in the garden beds.

Over the last while, we have been spreading woodchips over the berm and creating paths using driftwood. We have also been exploring Math concepts in nature.
