

SD72 PARENT HOME LEARNING LESSON

ADDING DOUBLES

PURPOSE / SKILL: Building adding skills while connecting adding to real life images. This adds meaning and helps children to remember better.

MATERIALS: Printout of the 2 pages of handouts provided.

INSTRUCTIONS:

- Look at the picture. What do you see? What number is doubled?
- Write down the doubles adding question that fits the picture.
- Write down the answer.

POSSIBLE NEXT STEPS:

- Create your own pictures and flashcards of doubles.
- Look for other examples doubles around your home, neighborhood, or when out. For example, 2 eyes ($1+1 = 2$)

Adding Doubles

$4 + 4 =$		8
