### Grad (no new information)

- June 26 Save the Date

o For now, same outline as last year with a car parade and school commencement in our front courtyard

o We feel it is important for families to be a part of this much as the same as last year creating a welcoming, caring, unique experience

o The decision was made to err on the side of planning with current protocols, as in the event they change, we can entertain ideas for other activities

### Facilities

- New electronic sign will be put in within the coming weeks in the front of the school
- Need to take a good inventory of furniture and ways to revive parts of the school
- Focus is also technology, and upgrading of projectors and having them ceiling mounted, in phases
- o An expensive endeavor but necessary to make space in classrooms (with cost of ceiling mount)

### Learning

- Admin is heavy into timetabling the 2021-22 school year
- o An email went out today to all families with a summary of the changes with an understanding there may need to be adaptations
