Fire Update

From May 6th:

- Geo-technical work began today to review portable placement and A wing reconstruction.
- Based on enrollment and replacement of teaching space, we should have six portables, and a camp kitchen coming this summer
- The classrooms under the stage should be available for the start of the school year.
- PE will continue at Robron for the start of the year
- Currently unsure if the kitchen will be ready for start-up so other plans will be in place.

For next year, we are looking at the possibilities for returning to a four-block day. Transportation for Robron will be addressed and any other possible programs requiring bussing. Based on anecdotal conversations with students and meeting with student advisory, students shared the challenges with the current system, while acknowledging some benefits. Overall, there appear to be more benefits to returning to a four block model.

This has been a very challenging year for many reasons and as we look at the last few weeks of school, we are hoping to bring some fun activities to Carihi, starting tomorrow with our Pep Rally out on the lower field as part of our spirit week. At the end of this month we will host Caripalooza before kicking off grad season in June. Scholarship and Bursary evening is June 4th, Indigenous graduation is June 5th, and Prom is June 7th. On June 25th we will have our convocation at the arena.

The three goals of the 2024-28 Strategic Plan are:

1. Honouring Indigenous World Views and Perspectives
2. Student Centered Learning Environments
3. Evolving for Tomorrow
