

NUMBER PLAY

PURPOSE / SKILL: Develop number sense

INSTRUCTIONS: Choose a starting number based on the level of skill you are working on. It is good to also do numbers that start close to 100 and go over.

1) Write the numbers to the end of the boxes counting by ones.

2) Write the numbers to the end of the boxes counting by _____.

3) CIRCLE ANY PATTERNS THAT YOU CAN FIND.

4) Choose a special number for one of the boxes. Put a STAR or BUBBLE around your number. Use your number to finish the tasks below.

YOUR SPECIAL NUMBER: _____ EVEN? ODD?

One number more: _____ One number less: _____

Tens number more: _____ Tens number less: _____

EXPANDED NOTATION:

This means to break the number into its parts.

For example: $245 = 200 + 40 + 5$

_____ = _____

WRITE YOUR NUMBER IN WORDS:

HOW MANY WAYS CAN YOU MAKE THIS NUMBER?

(For example.... If my number was 4, I could make $3+1=4$... or $10-6=4$

Or $100=4$ Or $2 \times 2=4$ or $10+12+100+2 - 120 = 4$)
