

# SD72 PARENT HOME LEARNING LESSON

## USING THE DOUBLES

**PURPOSE / SKILL:** Use what you know about doubles to build other addition and subtraction skills.

**MATERIALS:** Two page handout provided below, pencil

### INSTRUCTIONS:

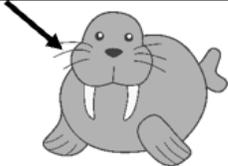

- Print off the two pages of handouts.
- Together with your child, look at the picture clue to create the doubles addition question. Discuss how the picture is a “double”.
- Create the Doubles +1 question and answer it.
- Use the answer from the doubles addition question to create the subtraction question. For example,  $3+3 = 6$ .  $6-3=3$ .

### POSSIBLE NEXT STEPS:

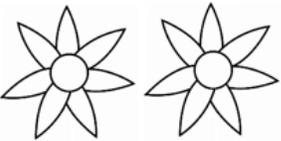

- Create your own doubles questions.
- Can you think of things to help you remember more doubles?

# Using the Doubles

Name: \_\_\_\_\_

	Doubles	Doubles + 1	Subtract Doubles
	$4 + 4 = 8$	$4 + 5 = 9$	$8 - 4 = 4$
	$\underline{\quad} + \underline{\quad} = \underline{\quad}$	$\underline{\quad} + \underline{\quad} = \underline{\quad}$	$\underline{\quad} - \underline{\quad} = \underline{\quad}$
	$\underline{\quad} + \underline{\quad} = \underline{\quad}$	$\underline{\quad} + \underline{\quad} = \underline{\quad}$	$\underline{\quad} - \underline{\quad} = \underline{\quad}$
	$\underline{\quad} + \underline{\quad} = \underline{\quad}$	$\underline{\quad} + \underline{\quad} = \underline{\quad}$	$\underline{\quad} - \underline{\quad} = \underline{\quad}$
	$\underline{\quad} + \underline{\quad} = \underline{\quad}$	$\underline{\quad} + \underline{\quad} = \underline{\quad}$	$\underline{\quad} - \underline{\quad} = \underline{\quad}$
	$\underline{\quad} + \underline{\quad} = \underline{\quad}$	$\underline{\quad} + \underline{\quad} = \underline{\quad}$	$\underline{\quad} - \underline{\quad} = \underline{\quad}$
