

Bug Buster Kit £5.95 + [Add to basket](#)
P&P

[Contact us](#) if you require more than 5 Bug Buster Kits

With the unique combs in the Bug Buster Kit, your usual shampoo and any conditioner you can detect and clear head lice and remove nits, following the instructions included in the Kit. The bevel-edged teeth of our specially developed Bug Buster comb comfortably pick up head lice which the more rounded teeth of other fine tooth combs miss. The teeth are precisely spaced, close enough to swiftly lift out newly-hatched head lice, whilst still allowing easy movement through the hair.

- Lice cannot become resistant (immune) to the Bug Busting Method.
- Bug Busting fits in with weekly hairwashing to keep you on top of head lice.
- Bug Busting is a safe, no-pesticides way to cope with head lice routinely and in a crisis.
- You only need one re-usable Kit for the whole family - you'll never have to buy another head lice treatment!

What is in the Bug Buster Kit?
